The purposes for which we use Personal Information are:

- To conduct our business and co-branded businesses
- To maintain our accounts and records and keep our records up to date
- To promote and advertise our products and services
- To support and manage our Brand Influencers
- With consent, for direct marketing
- With consent, to provide events and other communications to Brand Influencers or Customers
- With consent, for analysis by aggregating Brand Influencers' Personal Information (for example to provide rankings/tabulated statistics and event itinerary forms) (we use service providers to do this)
- To provide products and services
- To provide fulfilment, advertising or other services to other merchants or co-branded businesses (since we do not manufacture or produce items such as shirts, hats and bags) (fulfilment is necessary for contract performance)
- To operate our Sites
- To help detect and prevent fraud
- For diagnostics and IT security
- For intra-group administration and administration of our relationships with Brand Influencers, merchants, co-branded businesses and service providers (transfers are with consent), and
- Our disclosures (if any) of possible criminal acts or security threats to the proper authorities.

Our legitimate interests are to operate our business in accordance with legitimate commercial practice, for example to provide products and services, to maintain accounts and records, and for promotion and advertising, including management of our Brand Influencer and Customer accounts, fraud prevention, direct marketing (where consent isn't required), internal group administration and administration of other relationships, network and information security and reporting criminal and security threats.

Our merchants, co-branded businesses and service providers' legitimate interests are for service provision and operating their businesses, as set out in more detail in the purposes section above and the indirect categories section below.

We collect the following categories of Personal Information indirectly (i.e. from third parties):

- Updated delivery and address information from our carriers or other third parties which we use to correct our records and deliver your next purchase or communicate more easily
- Account information, purchase or redemption information and page-view information from some merchants with whom we operate co-branded businesses or for whom we provide technical, fulfilment, advertising or other services
- Search results and links, including paid listings (such as sponsored links)
- Registration details from a family member (e.g. a spouse) who enrolls you as a Brand Influencer (if you do this yourself, please make sure you have the other person's prior consent)
- Your name, address and phone number, if a member sends you one of our products (e.g. as a gift).

We may share your Personal Information with:

- Brand Influencers; for example:
 - Merchants and co-branded businesses (if you buy one of their products or services through our Site) (please contact us for details)
 - Brand Influencers (who receive information about their Customers) and upline Sponsors (who receive information about Brand Influencers in their downline). This information is used to provide Brand Influencers and upline Sponsors with credit for orders and Brand Influencer enrolments.

Note: if consent is given to a Bi or upline Sponsor, they may use your Personal information for their own marketing purposes.

- Suppliers (for example service providers)
- Consultants and professional advisers
- Revital U entities and affiliates
- A prospective purchaser of all or a part of our business, and other recipients as permitted or required by applicable law.

Whatever the purpose may be – whether we share with service providers or other external companies – we only use and share your Personal Information to the extent reasonably necessary to fulfil your requests and our legitimate business objectives/interests. When we disclose Personal Information to external companies to perform support services for us, they may access your Personal Information only for the purposes of performing those support services (in accordance with our instructions) and must keep your Personal Information secure.

Our Sites are hosted in the US and your Personal Information will therefore be transferred to Revital U International LLC's US-based data centres. They will use your Personal Information in accordance with this Privacy and Cookie Policy, including sharing it with Revital U authorised service providers. Because the direct selling model relies on connectivity of Brand Influencers and Customers, your Personal Information may also be accessed from any country in which we operate. **You will be asked to give explicit consent on this Site and your continued use of this Site after that constitutes your explicit consent to these transfers.** Please read on.

Here is a short explanation of the options for transferring Personal Information outside the EEA.

First, an "adequacy decision" which is a legal decision by the European Commission that adequate protection is provided by a country, territory, specified sector(s) or an international organisation. It is based on an assessment of the following: (a) rule of law and other legal considerations (b) existence and functioning of an independent supervisory authority and (c) international commitments and obligations/participation.

Secondly "appropriate safeguards" which may take several forms, including:

- Standard data protection clauses adopted by the European Commission (commonly called "model clauses")
- Other contract clauses that have been approved by the Information Commissioner
- "Binding corporate rules" which apply to a group of companies or enterprises engaged in a joint economic activity
- An approved code of conduct or approved certification mechanism, which binds the organisation in the third country and can be enforced.

Thirdly, "derogations" (exceptions) such as consent or contact performance.

As of April 2018:

- Neither the USA nor any country in which Revital U operates has an adequacy decision
- Revital U International LLC has not joined the EU-US Privacy Shield, which has an adequacy decision
- There are appropriate safeguards (model clauses) in place between Revital U Ltd. And Revital U International
- Where appropriate safeguards are not in place or are in place, but a court finds them invalid or they are ineffective for some other reason, our transfer of your Personal Information is based on an exception (derogation), namely your consent to the transfer. **Please note that the absence of an adequacy decision and appropriate safeguards creates possible risk that you will not have the same rights and remedies in respect of the processing of your Personal Information once it is in the USA and Mexico or other non-EEA countries as you would have in the UK.**

IF YOU PREFER NOT TO HAVE YOUR PERSONAL INFORMATION TRANSFERRED TO THE UNITED STATES OR ANY OTHER COUNTRY IN WHICH WE OPERATE, PLEASE DON'T USE THIS

The period for which we will store Personal Information is based on our need to fulfil our legitimate business needs, comply with applicable law, resolve disputes, and enforce our agreements.

Because the direct selling model is based on connectivity between Brand Influencers and Customers, the storage period will be for the longer of (a) the period that you remain connected to other Brand Influencers and Customers, and/or at least (b) seven (7) years after your last purchase of a product.

For website visitors, if you consent to cookies through our cookie banner, the consent cookie is valid for 1 year. If you agree to our terms and conditions when logging in as a member, we will store that cookie and it is valid until the document is updated and changed. The vast majority of cookies (most of which are for site analytics) last two years or less. You can shorten each cookie's storage period by deleting the cookie before the expiry date. Please see part 8 Cookies and similar technologies for information on how to delete cookies and adjust your browser settings.

You have rights to make a request to us:

- For access to your Personal Information
- For erasure of your Personal Information
- For restriction of processing concerning you
- To object to our processing which is based on legitimate interests
- To object to direct marketing (including to object to related profiling)

If you are a member you can access some information yourself. Please see below.

To exercise your rights, please contact us. Our contact details are in the 'Key Information' section above. We can send you an individual rights form if you wish, but the law does not require you to complete a form.

You have a right to withdraw any consent you give us at any time.

This will not affect the legality of our consent-based use before you withdrew consent.

You have a right to complain to the Information Commissioner, whose contact details are:

Website: <https://ico.org.uk> which sets out email addresses and an email form.

To ensure we act responsibly, an ID verification check on your National Insurance number or UTR (if you are reporting earnings as a business) will be required if you apply to be a Brand Influencer.

To buy products and services from us, and enable us to fulfil your order, you must provide certain Personal Information to us.

The sources of the Personal Information we collect indirectly are:

- Our carriers or other third parties (updated delivery and address information)
- Merchants with which we operate co-branded businesses or for which we provide technical, fulfilment, advertising or other services (account information, purchase or redemption information and page-view information)
- Search engine providers (search results and links, including paid listings (such as sponsored links))
- Family members (where a family member enrolls a Brand Influencer)

We do not use automated decision-making which produces legal effects or similarly significant effects. We do however conduct data analytics on purchases to understand how we can improve our business model to enhance a Brand Influencer and Customer interactions with us. We also use web analytics on our Sites which affects website visitors.

We do not base profiling on special categories of Personal Information, that is Personal Information revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, and the processing of genetic data, biometric data for the purpose of uniquely identifying a natural person, data concerning health or data concerning a natural person's sex life or sexual orientation.

Meaningful information about the logic involved: we use certain categories of Personal Information from Brand Influencers, website visitors; and mobile users, to create a profile. The source of this Personal Information is you or other sources. This Personal Information is directly relevant to improving our business model as set out above.

Significance and envisaged consequences for you: as a result of data analytics, you may see different recommendations depending on your purchases and browsing or a new feature on the Site; data analytics also helps keep you and other Brand Influencers and Customers safe from fraudulent activity.
